1. Introduction

1.1. Purpose

The purpose of this User Guide is to provide general system information, as well accessibility and user roles with the VHIC application and the reporting capability of the different roles and access levels.

1.2. Document Orientation

1.2.1. Organization of the Manual

This User Guide is divided into sections to allow you to quickly obtain the information you need.

The first section will provide an overview of what the various user roles and their accessibility within the VHIC application. Available reports and report details will vary depending on role and access level.

The next section will provide information on the different reports available to VHIC Associates and the types of metrics that can be obtained. There are five tabs for each of the reports that can be generated:

- **Veteran** – direct report to search for a Veteran
- **Card** – includes Request Totals, Status, Multiple Requests, History, Replacement, Expiration, Request Progress, Swipe/Scan, and On Hold
- **Print Services** – includes Processing, No Member ID, and Error
- **Auditing** – provides information on all User's activity in the system
- **Self Service** – provides information on requests submitted thru VHIC Self Service portal by the veteran

Reports can be exported in PDF and/or XLS formats, and there are a variety of search criteria available for each report.

1.2.2. Assumptions

This guide was written with the following assumed experience/skills of the audience:

- User has basic knowledge of the operating system (such as the use of commands, menu options, and navigation tools).
- User has been provided the appropriate active roles, menus, and security keys required for the VHIC application.
- User is using *Google Chrome or Microsoft Edge* to do their job of either Creating VHIC Card Requests, Running Reports, or Deactivating VHICs depending on user roles.
- User has validated access to the VHIC application.
- User has completed any prerequisite training.

1.2.3. Disclaimers

1.2.3.1. Software Disclaimer

This software was developed at the Department of Veterans Affairs (VA) by employees of the Federal Government in the course of their official duties. Pursuant to title 17 Section 105 of the United States Code this software is not subject to copyright protection and is in the public domain. VA assumes no responsibility whatsoever for its use by other parties, and makes no guarantees, expressed or implied, about its quality, reliability, or any other characteristic. We would appreciate acknowledgement if the software is used. 1.2.3.2. Documentation Disclaimer

The appearance of external hyperlink references in this manual does not constitute endorsement by the Department of Veterans Affairs (VA) of this Web site or the information, products, or services contained therein. The VA does not exercise any editorial control over the information you may find at these locations. Such links are provided and are consistent with the stated purpose of the VA.

1.2.4. Documentation Conventions

This manual uses several methods to highlight different aspects of the material.

- Descriptive text is presented in a proportional font (as represented by this font).
- “Screenshots” of computer online displays (i.e., character-based screen captures/dialogs) and are shown in a non-proportional font and enclosed within a box. Also included are Graphical User Interface (GUI) Microsoft Windows images (i.e., dialogs or forms).
- User's responses to online prompts (e.g., manual entry, taps, clicks, etc.) will be **[boldface]** type and enclosed in brackets.

1.3. Enterprise Service Desk and Organizational Contacts

The support contact information documented herein are intended to restore normal service operation as quickly as possible and minimize the adverse impact on business operations, ensuring that the best possible levels of service quality and availability are maintained.

The following table lists the contact information needed by site users for troubleshooting purposes. Support contacts are listed by description of the incident escalation and contact information (phone number and options to select).

Table 1: Enterprise Service Desk Contact Information

Issue	Contact Info
For Provisioning Issues	Contact the Enterprise Service Desk at, option 2. When contacted by a support specialist, be ready to supply the employee's full name, VA user ID and email address.

Issue	Contact Info
For Proofing Issues	Contact the Enterprise Service Desk at REDACTED, option 2. When contacted by a support specialist, be ready to supply the Veterans' full name, full SSN, and DOB.
For All Other VHIC System Issues	Contact the Enterprise Service Desk at REDACTED, option 2. When contacted by a support specialist, be ready to supply the Veterans' full name, full SSN, and DOB.

2. Accessing the VHIC Application

2.1. Browser

VHIC is a web-based application which users will access via a web browser. The recommended browser is *Google Chrome or Microsoft Edge*.

The VHIC URL is REDACTED and is **case sensitive** – it must be entered exactly as shown. After successfully logging in to the VHIC application, users should bookmark this site for easy access in the future.

2.1.1. Browser Incompatibility Issue

In some instances, users may experience image misplacement or misalignment. This is most likely due to the current browser compatibility settings. You will want to ensure that the browser is not set to Compatibility View. This process is explained in the *Veteran Health Identification Card User Guide - Volume 4 - Troubleshooting* document.

2.2. System Menu

Depending on the VHIC users' role, they will be presented different Home screens upon logging to the VHIC application.

2.3. Proper Navigation of the VHIC Application

The correct way to navigate through the VHIC application is to use the **[Back]** and **[Next]** buttons that are located at the bottom of each screen instead of using the Browser's built in Back button. Please do **NOT** use the **[Back]** button at the top of your browser window to navigate back to a previous screen; this will cause errors to occur.

Figure 1: VHIC Navigation Buttons

The VHIC user can also navigate to the different features within the VHIC application by clicking on one of the navigation links located in the header near the top left of the screen. The user's assigned role will determine which links are available as seen below. To see the full home screens for each user role, refer to REDACTED

Figure 2: VHIC Administrator

Figure 3: VHIC Associate and VHIC Supervisor menu

Figure 4: VHIC Auditor and VHIC Read-Only User menu

NOTE: The **[Skip To Content]** link is a Section 508 compliance feature that skips repetitive navigation links so that page content can be quickly accessed.

2.4. Roles within VHIC

The VHIC application is built to accommodate a specific set of pre-established user roles. During the provisioning process, the VHIC user will have a role assigned to them, which will determine what aspects of the VHIC application are available to them. The following breaks down the specific roles and the areas of access that accompany each role.

If, while utilizing the VHIC application, a user finds they do not have access to items they feel they should have access to or find that they have access to items they should not, based on the definitions listed below, the VHIC user should report this information to their VHIC Supervisor. The VHIC Supervisor should then verify that the proper role has been assigned.

For a detailed list of Roles and corresponding Access levels please refer to the **VHIC Roles and Access** document.

2.4.1. VHIC Administrator

The VHIC Administrator will be presented with three menu options: **Card Requests**, **Reports** and **Card Management**. They can navigate to each of these application modules by either clicking on one of the links located in the header at the top left of the screen or by clicking on one of the icon buttons in the middle of the screen.

Figure 5: VHIC Administrator

2.4.2. VHIC Associate and Supervisor

The VHIC Associate and VHIC Supervisor users will be presented with two menu options: Card Requests and Reports. They can navigate to each of these application modules by either clicking on one of the links located in the header at the top left of the screen or by clicking on one of the icon buttons in the middle of the screen.

Figure 6. VHIC Associate and VHIC Supervisor Home screen

2.4.3. VHIC Auditor and Read-Only User

The VHIC Auditor and VHIC Read-Only users will be presented with the Reports menu option. They can navigate to Reports by clicking on the icon button in the middle of the screen.

Figure 7: VHIC Auditor and VHIC Read-Only User Home screen

3. VHIC Reporting

The VHIC application offers a variety of reporting options divided into five main reporting tabs. Certain tabs may contain sub-tabs. Not all VHIC user roles have access to all reports, or all of the available functionality of certain reports (*i.e., national option or multi-select option*).

The **National search option** returns results, which includes every available VISN and Facility. This option, triggered by selecting the **National** checkbox, is only available to those user roles with authorization to use this feature. Since the results returned consist of all VISNs/Facilities, checking the **National** checkbox removes any available VISN and/or Facility options.

The ability to **Multi-select** is available on certain reports that have VISN and/or Facility selection criteria and is available to Administrators, and Tech Admin (Tier 3) roles. This feature works by holding down the **[Control]** button (Ctrl) on the keyboard and single clicking on each desired list items.

Most reports give the user the option to select either **[Report]**, **[Create PDF]**, or **[Create XLS]** once they have entered their search criteria. Clicking the **[Report]** button will generate the query results in a new tab. This allows the user to return to the original query tab in order to modify their search criteria if needed. Keep in mind, while date ranges may be generous, results are limited to 3000 lines.

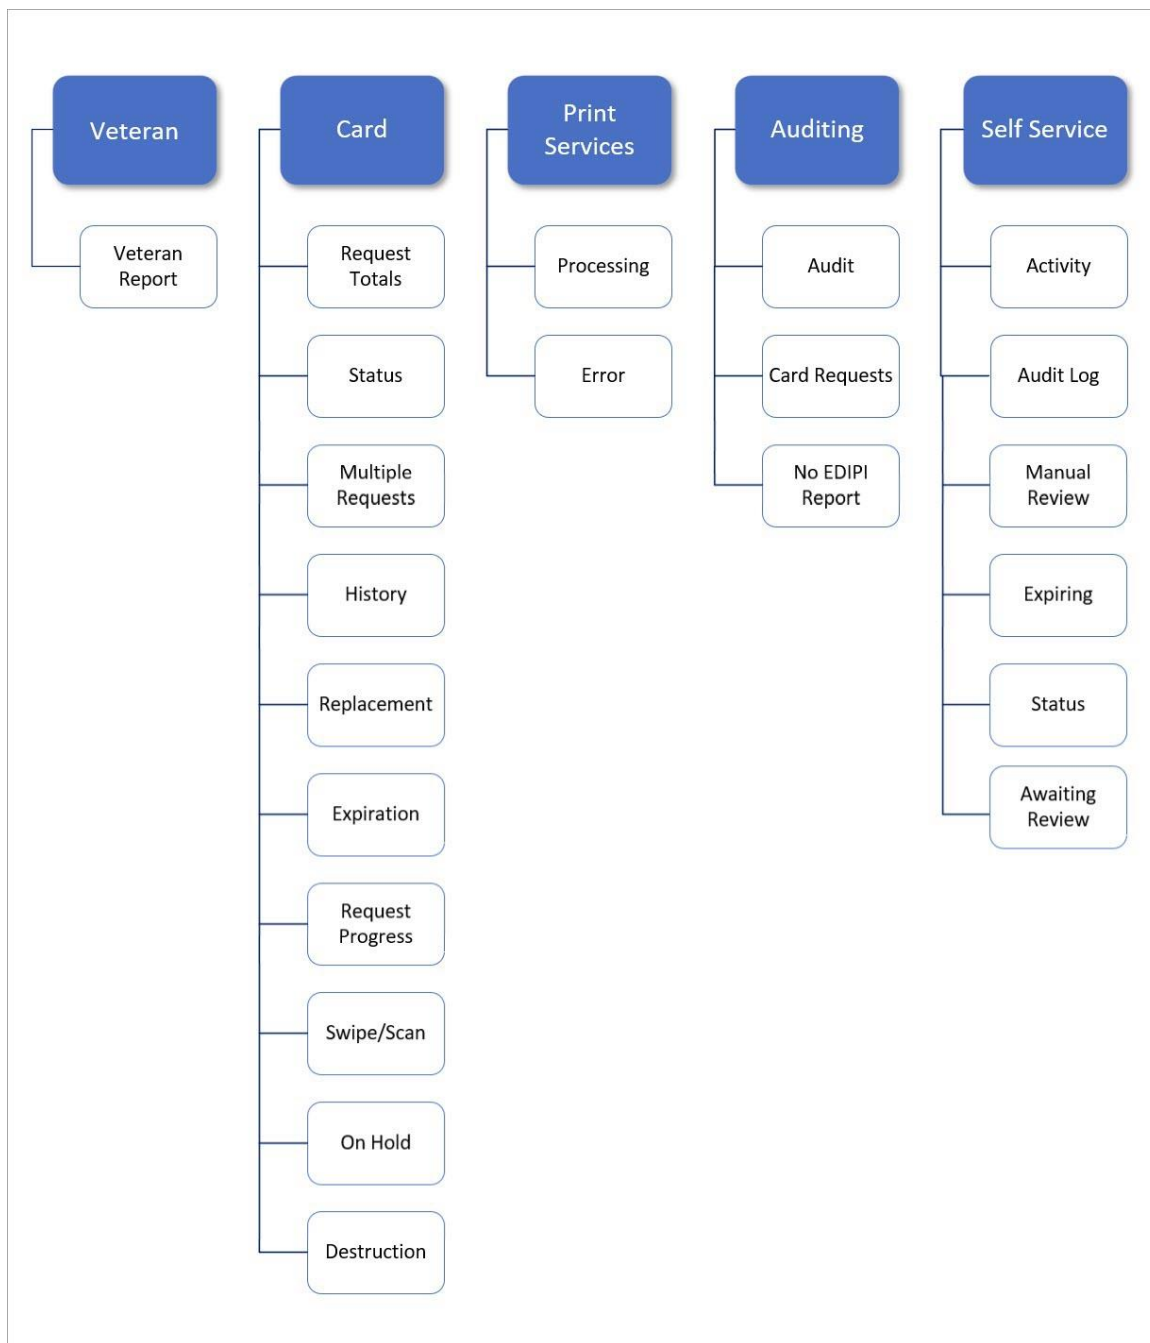

The user selects the desired reporting option by clicking on the appropriate tab or sub-tab. A tab highlighted in blue, lets the user know which report they are viewing. Once they select a report, the user will need to provide certain search criteria based on the specific requirements of the report selected.

Some reports contain **Hyperlinks**. Clicking the hyperlinks (indicated by blue font) allow the VHIC user to access more detailed information. For instance, if the user wants to keep the **Summary Report** for a VISN open while reviewing the **Detail Report** for a specific Facility, they can hold down the **[Control]** button (Ctrl) on the keyboard while clicking on the hyperlink for the Facility they wish to view. This opens the **Facility Detail Report** in another browser window allowing the user to view both reports and have the ability to select another Facility in which to view.

NOTE: All report examples in this User Guide will be shown from the Administrator role view as it provides the most options. Other roles will see appropriate options and details as assigned to their workgroup.

The screenshot displays the 'Veteran Health Identification Card (VHIC)' system interface. At the top, there is a navigation bar with links: Home, Card Request, Reports, Card Management, and a 'Skip to Content' link. Below this is a sub-navigation bar with tabs: Veteran, Card, Print Services, Auditing, and Self Service. The main content area is titled 'Veteran Report'. A red error message is displayed: 'Card ID: Please enter a valid number between 0 and 2147483647.' A red arrow points to this message. Below the error message is a 'Search Criteria' section with a form containing the following fields: Last Name, First Name, DOB (with a calendar icon), Last 4 of SSN, ICN, Member ID, Card ID (containing the text 'dfgggg'), and Person ID. At the bottom right of the form are 'Clear' and 'Query' buttons.

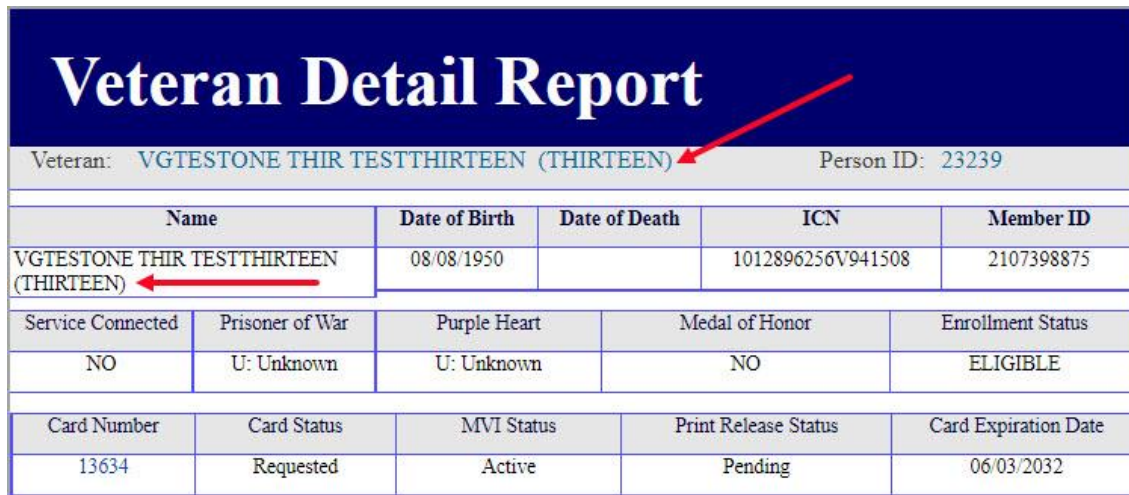

Clicking on the Veteran's name, or on their ICN, displays a comprehensive level of this report, a.k.a. the *VHIC Veteran Detail Report*.

Search Criteria Available (may vary by role)	VISN, Facility, Start Date, End Date

The Card Request Totals Report gives the user exactly that – the total card requests by selected VISN and/or Facility, in a tabular format within a designated period of time. By default, the "End Date" is set to the current date and the "Start Date" is set to a month prior. The Selecting the National checkbox, if available, returns results for all VISNs and Facilities. Selecting either the [VISN] or the [Facility] radio button will update the list of available options accordingly.

The Card Request Totals Report can be viewed by clicking the **[Report]** button or using the **[Create PDF]** button to generate a pdf of the results for Details can be viewed on an Excel Spreadsheet by selecting **[Create XLS]**.

The *Card Status Report* contains three unique categories: MPI Status, Card Status, and Print Release Status. This report has the usual search criteria options such as VISN or Facility, Start Date, and End Date. Along with those, the user must choose one of the three (3) options: *MPI Status*, *Card Status*, or *Print Release Status*. Each one of these options contains their own drop-down-list of items. The user must select one item from the corresponding list prior to running the desired report. The following sections list the options available for each status' selection. As with all reports, access to report categories, statuses, and options will depend on the role and access level of the user.

Table 9: Card Request Progress Report at a Glance

At a Glance...	
Who can access this report?	Administrator, Supervisor, Associate, Tech Admin (Tier 3), Auditor
Who can access National version?	Administrator, Tech Admin (Tier 3), Auditor
Date Range Allowed	Administrator, Tech Admin (Tier 3), Auditor – unlimited Supervisor, Associate – one (1) year or less from date report is being run
Search Criteria Available	VISN, Facility, Start Date, End Date

There are many stages that a VHIC (card) goes through once the user clicks either the **[Submit]** button or the **[Hold]** button.

The *Card Request Progress* report allows the user to see how many cards are currently at each step of the Card Request lifecycle starting from the time the VHIC user clicks on either the **[Submit]** button or the **[Hold]** button, all the way through the mailed confirmation for a given VISN, Facility and Nationally, during a set time period.

The card request stages that are displayed on this report are: Pending, Request Submitted, On Hold, Defunct, Sent to Printer, Acknowledged, Rejected, and Confirmed Mailed.

This would allow the user to keep an eye on potential areas of trouble (i.e., Cards On-Hold or timing out and becoming Defunct) and be able to track down what is happening at each stage much easier.

Clicking **[Submit]** on step 6 of the Card Request process does not immediately transmit a card request to the print vendor. The card requests from all sites are stored throughout the day, then bundled and transmitted to the print vendor in one batch file. When the print vendor receives the batch file, they send back an acknowledgement file for every request specifying success or failure in card printing. The number in the report comes from the data updated by the confirmation and acknowledgement files received from the print vendor.

The *Print Services Processing Status Summary Report* date fields are not auto populated like most of the other reports. The user must populate them prior to running the report.

Search Criteria Available	VISN, Facility, Not Acknowledged, Acknowledged Not Confirmed, Pending Not Sent (which includes configurable Number of Days field), Start Date, End Date

The *VHIC Print Error Status Summary Report – Sent Not Acknowledged* allows the user to find out how many cards have not been acknowledged with an acknowledgement file or cards that have been acknowledged but have received no confirmation of being mailed (*Acknowledged Not Mailed*) within a given date range. The user will also be able to see how many cards are still sitting in a Pending state and have not been sent to the print vendor (*Pending Not Sent*).

The user would be able to select the number of days to configure the query. How many days after being sent to the printer before looking for an Acknowledgement file, how many days after getting the Acknowledgement file before receiving Confirmation of it being mailed, or how many days has the card been sitting at a Pending status but has not been sent to the print vendor.

The user would be able to select between National, VISN, and Facility depending on their role.
